

NFC DEVELOPMENT KITS

SIC4310 Development Kits

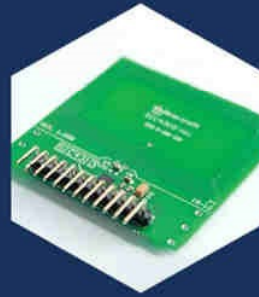

SIC4310-MC

A 12.5 x 19.7 mm tiny module with a UART interface and 4 GPIOs.

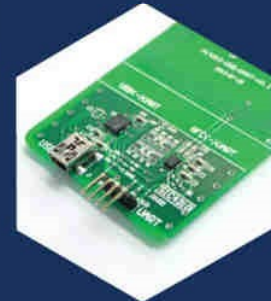

SIC4310-USB

A 12.5 x 37.3 mm tiny module with a USB interface.

SIC4310-HV

A harvesting module with a UART interface and 3 GPIOs. The on-board inductive antenna can harvest a current up to 10 mA.

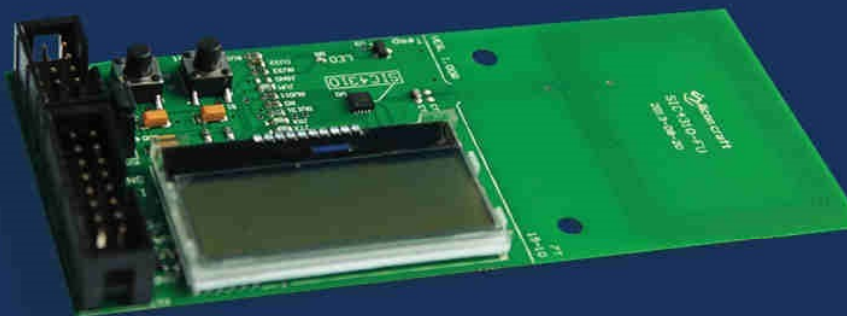

SIC4310-HVU

A harvesting module featuring UART or USB interface and two LEDs that can be controlled via GPIO pins. The on-board inductive antenna can harvest a current up to 10 mA.

SIC4310-FU

Ready-to-use kit featuring ARM Cortex M0 MCU, SIC4310, LCD, inductive antenna, two function buttons, temperature sensor, connectors (I2C, SPI, USART, programming and debugging).
